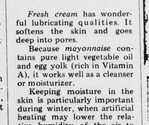
Natural Skin Care

Interested in the natural approach to complexion beauty?

Here are some natural beauty tips, from great-grandmother's time and today.

Egg white makes an excellent facial mask, tightening pores and toning the skin. Beat the egg white slightly, apply generously, and relax for 20 to 30 minutes while it dries. Rinse away with water. Warmed honey also works well as a mask.



Fresh cream has wonderful lubricating qualities. It softens the skin and goes deep into pores.

Because *mayonnaise* contains pure light vegetable oil and egg yolk (rich in Vitamin A), it works well as a cleanser or moisturizer.

Keeping moisture in the skin is particularly important during winter, when artificial heating may lower the relative humidity of the air to sub-desert levels. One sure way to protect your skin from the drying effects of winter heat is with home humidification, which holds the relative humidity level at the generally accepted comfort level of 30 to 40 percent.

The Air-Conditioning and Refrigeration Institute offers help to humidifier shoppers by publishing a Directory of Central System Humidifiers. This directory lists capacity and performance of central home humidifier models and can be consulted at your local contractor's office.
